

## Focus on Missions

### Center for Alternatives in Community Justice

The Center for Alternatives in Community Justice serves society by working with the community and justice system to promote, develop, and implement effective alternatives that preserve human dignity, restore, heal, and empower individuals. Today, according to the American Civil Liberties Union, nearly 60,000 youths under the age of 18 are incarcerated on any given day. The truth is that sanctioning juveniles with incarceration and disrupting their education removes them from their homes and fosters trauma and resentment, which later translates into violence. Promote restorative justice in our community with your gift to CACJ.
